

Rushville, Indiana

Commerce Park at Rushville

Target Industries

While we strive for a very diverse business base, the major focus is on five industry clusters:

- **Manufacturing + Advanced Materials.** Resources available to help fund training for manufacturing employers.
- **Wind Energy Production.** Wind energy components manufacturing as well as the soon-to-be developed Flatrock Wind Farm in north Rush County with targeted 42-49 turbines.
- **Transportation and Logistics.** Building on existing local trucking firm; expand opportunities for specialized trucking, warehousing and storing for refrigerated and farm products.
- **Agribusiness, Food Processing & Technology.** Includes seed, crop, animal and dairy production, as well as food preparation and packaging.
- **Business and Financial Services.** Includes companies involved in Portfolio Management, Insurance, Public accounting, Engineering services, and Computer-related services.

Prime Location

Shovel-ready site: 80 acres with potential expandability by another 200+. Suitable natural gas, 3-phase electric, water, sewer, and fiber optics all within its footprint.

Additional multiple existing buildings and building sites listed at www.rushecdc.org.

Rush County offers:

- **Skilled Workforce**
- **Redundant Fiber Optics Network**
- **Affordable Utilities**
- **Business Friendly Community**
