

One Day • One Stop • No Cost • Three Services!

Wednesday, MARCH 12th 9am-12pm

Launching Your Own Business: A Sound And Proven Path Workshop is the first step toward small business ownership success. This workshop helps entrepreneurs evaluate their business ideas with that end in mind. Prepare yourself to create a sound business plan, manage expectations, and increase your chances of accessing capital.

Business Advisors are trained and equipped with some of the most sophisticated business resources available. Partnerships developed with service providers allow the ISBDC to access the same information large corporations use when making strategic business decisions. Since the ISBDC is a non-profit organization, information provided to clients is often free or at a fraction of market price.

Meet and introduce yourself to local lenders who will be on hand to explain loan processes. Participating banks: Wells Fargo, First Merchants, BMO Harris & Main Source

To register, or for more information, call the ECDC AT 765-938-3232
